More than fifty policemen, commanded by Captain Edward J. Burns, of the 77th Precinct, were required to quell the confusion. Chief Inspector Lahey arrived shortly after the accident in an automobile and took charge of the structures.

Telling to-day the story of her adventures from the time of her disappearance in a borrowed eighteen-foot Swampscott dory, Miss Fletcher said:

Strikers Raising Fund
The strikers, in a statement issued from strike headquarters in Brooklyn, declared that they are determined to stick it out for menths if necessary and, with aid from other unions, are raising a fund of \$400,000. Both Judge Julius Mayer and Receiver Lindley M. Garrison, of the B. R. T., maintained their attitude of inflexible opposition to the union. They declared that the intervention of Governor Smith in the situation on Monday, when he is to meet Samuel Gompers, president of the American Federation of Labor, in an effort to settle the strike, will not alter their attitude.

### Fatal Crash Near Scene Of the Malbone Wreck

The crash of two Brooklyn Rapid Transit cars at Malbone Street and Flatbush Avenue yesterday occurred not more than fifty feet from the Malbone Street tunnel, where more than ninety persons were killed, and more than two hundred injured in the B. R. T. train wreck of 1918.

After that wreck, the name of lalbone Street was changed to Empire Boulevard, in order, residents of the section say, to erase the memory of the tragedy. Residents living in the vicinity wondered yesterday if the name of the street was to be changed

LONDON, Sept. 11 (By The Associated Press).—The condition of Terence MacSwiney, Lord Mayor of Cork, who has been on a hunger strike in Brixton prison for thirty days, this afternoon reached the gravest stage yet recorded, according to the bulletin of the Irish Self-Determination League reporting on his case.

200 Chemical Plants Occupied

MILAN, Italy, Sept. 11 (By The Associated Press).—More than 200 chemical works here were occupied by workmen late yesterday and red flags were hoisted above them on orders issued by the Chamber of Labor.

The chemical plants were occupied simultaneously at a signal of three blasts on a sirem. The workers seized the factories despite the fact that they recently got wage increases of from 60 to 70 cents a day.

The Chamber of Labor, in explaining the seizure of the chemical works, said that the move was not in the nature of a real occupation of the plants, but was simply a measure which was necessary to guarantee metal workers the materials they need to carry on their industry.

The following bulletin was issued at 10 o'clock to-night:

"The following bulletin was issued at 10 o'clock to-night:

"The Lord Mayor of Cork is in a very exhausted condition. He is still suffering severely in his head and his body. He is still conscious."

The general impression from official and unofficial reports is that Mac-Swiney's death is expected at any hour. The officials apparently take this view because the police guard about the prison was doubled this evening.

While a fortnight ago crowds of Irish people hung about the prison all day, the numbers have gradually dwindled his formal adtendance of a real occupation of the plants, but was simply a measure which was necessary to guarantee metal workers the materials they need to carry on their industry.
